As a consumer I would like to submit my views to you on the Microsoft Settlement Case. I think this case has gone on much too long and it is time to resolve it for the benefit of the American people. It is time to move on.

I have been a consumer of Microsoft products for over a decade because I prefer Microsoft products. I am well aware that there are other software products that I could choose to use instead of Microsoft, i.e. Linux operating system instead of Windows, but I prefer Windows. So do many, many other consumers.

This case should be brought to a close as soon as possible.
